Disney+

What initially started as co-directing and designing the pitch for the launch campaign for UK and EMEA of Disney+, for almost a year I've now been working on all seasonal and individual titles and campaigns for the platform.

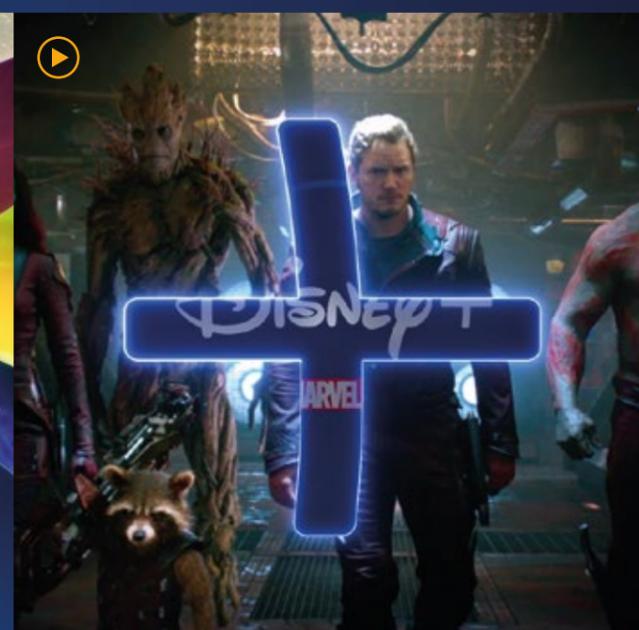

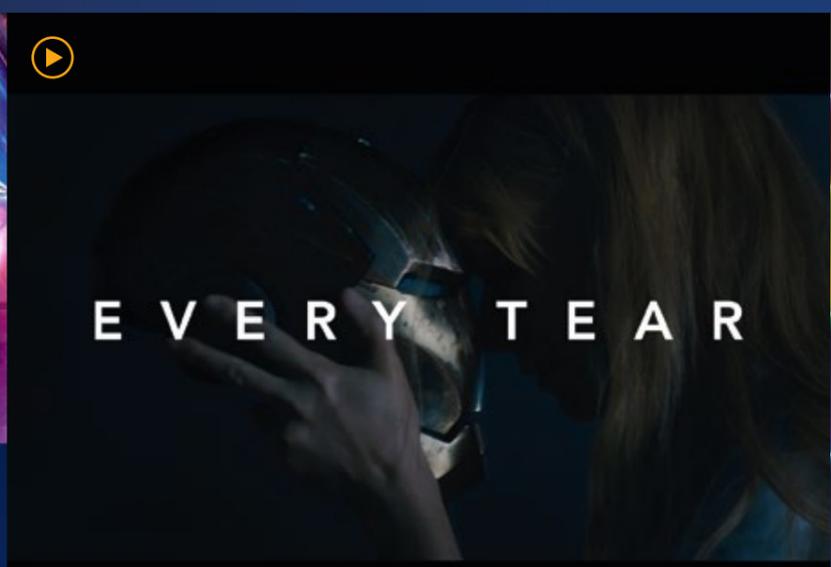

From the latest Autumn Marvel, and Pixar campaigns, to working on digital, media/animation and OOH for Onward and Mulan, and plenty more.

Disney+

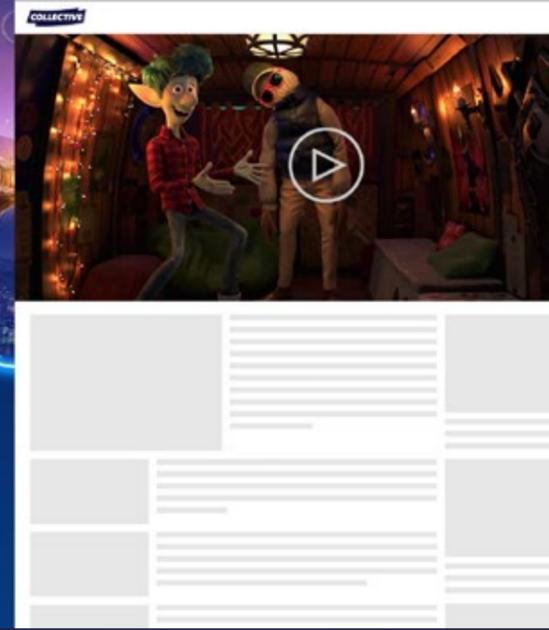

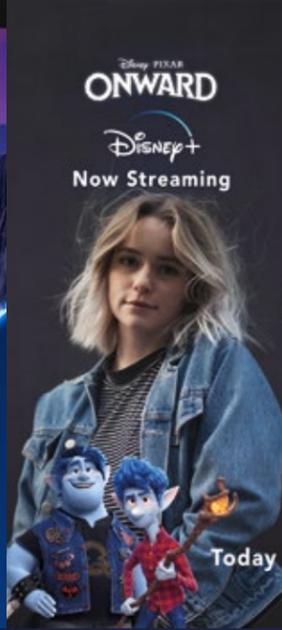

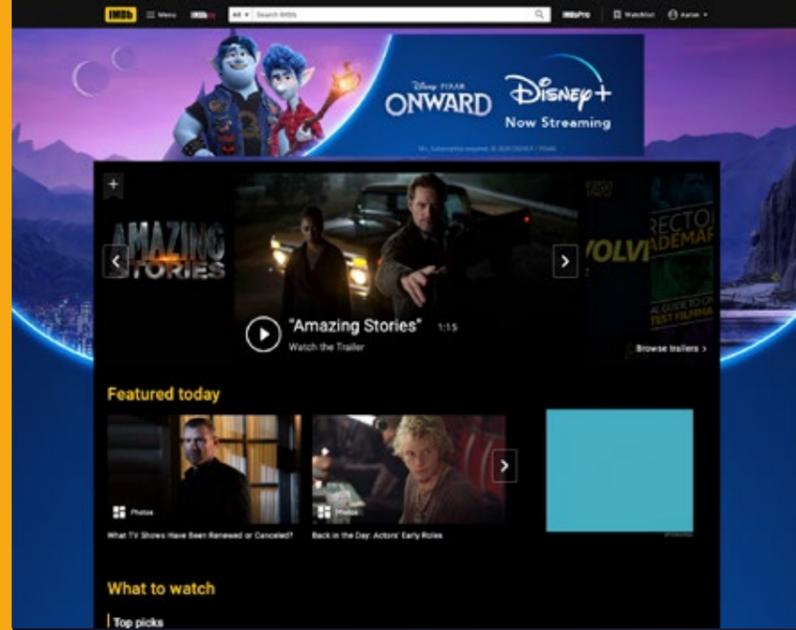

These are multimedia examples of the initial launch in early 2020, and how it has then expanded across a wide range of print OOH, digital and social platforms, and animation & film advertising media.

Disney+

Some of the latest titles campaigns I have worked on include Pixar's Onward, the new Mulan film and the latest season of the Mandalorian, spanning across customised website skins, assets for all Amazon Displays and other print and mixed media.

blu Pledge.World

An ongoing campaign to promote blu the vape company by giving consumers and influencers the chance to fulfil their lifetime pledges, consisting of various social content and OOH experiences.

Designing and artworking of container units, brochures, video editing and social content, various vehicle and apparel designs, 3D SketchUps, furniture VM and photography and editing and plenty more.

blu Pledge.World

Examples of other influencer content and video editing with all my designs within.

All videos are available on request and more plenty more examples of designs as well.

Disney DMD

As well as Disney+, I have worked on Disney Media Distribution campaigns. One of the larger scale ones worked on was the May Madness campaign of 2020, creating custom key art and animations that went across their socials, and created custom animated website skins to compliment.

These animations can be requested to be sent for the full viewing experience.

Mastercard RWC

Design work for Mastercard's Contactless Tackle, where you experience the sensation of a physical tackle just by wearing a Haptic Suit within a 360 VR Experience. I worked on the filming and editing of the 360 animated introduction to the experience and live video, as well as all design and animations within the UI, and filming/running the event.

Key Art & Animation

This is just a small selection of the keyarts and animations I have worked on.

Whether it's animated cinemagraphs, full length video editing or character animation and special effects, I always strive to get the most visually stimulating performance out of a key art.

These animations can be requested to be sent for the full viewing experience.

Amazon Hive

Design and artwork for the smartTown campaign for Milan Design Week, which then further expanded to other OOH conventions where the Hive products are uniquely shown working in these mini smart homes, alongside accompanying information boards.

Amazon Hive

Examples of Design, Artworking, 3D Rendering and final product come to life for the SmartTown in the UK and other Milan shows.

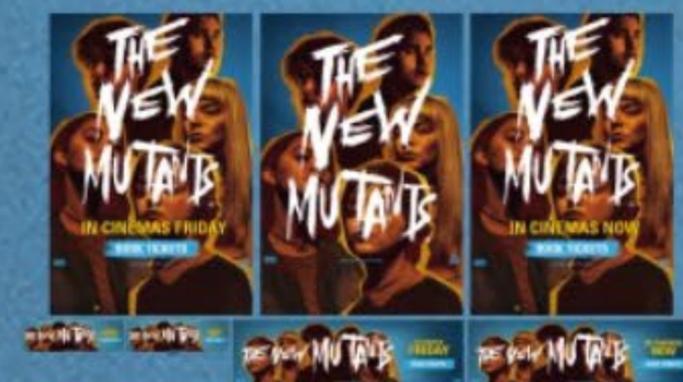

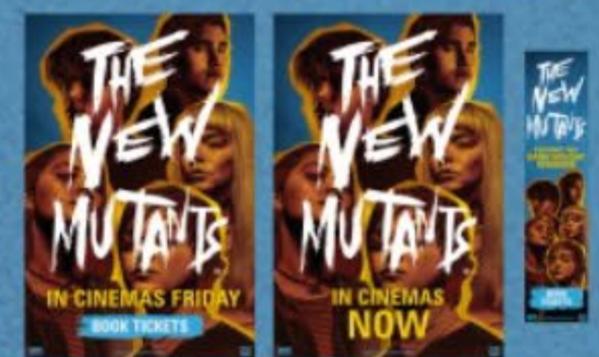

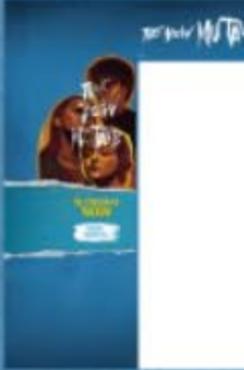

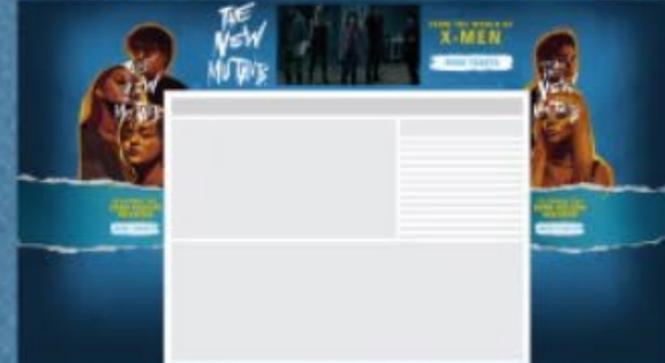

Fox - New Mutants

This is a select suite of static and animated banners that I've worked on for the film New Mutants. Using the key art I had to adapt this within a week of the final film release, due to the unprecedented position that COVID-19 put the client in.

Roughly 400+ static & animated banners and skins were created by myself in the week leading to the film's final release date for Vue, Odeon and many others.

Logo's & Branding

A selection of branding logos from predominantly freelance jobs, of which each have their own story.

Let's talk and I can take you through each one!

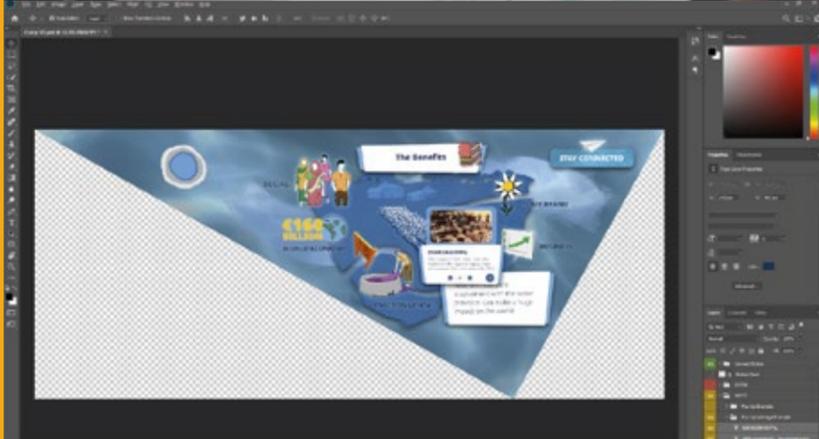

WaterAid

Immersive and collaborative storytelling to engage and educate the fashion industry, using a multi-taction table.

Worked on the concept, design and illustrations, animation and UX/UI for all elements.

Hotel Indigo

Hand painted, bespoke watercolour illustrations, and a design set of breakfast menu's, tray's and takeaway bags with integrated maps of the areas of Kensington, Glasgow, Dusseldorf, Paris and more.

One small positive thought
in the morning can
change your whole day

MUBI

A campaign for film fanatic site that turns around old classics and new gems to be found in the cinematography world.

Titled 'MUBI PRESENTS...' being a film focused set of short ads making the users the characters of their favourite scenes.

I'LL HUFF...
AND I'LL PUFF...
AND I'LL BLOW YOUR HOUSE IN.
JACK TORRANCE IN **THE SHINING** PERFORMED BY TOM

Get homemade food from quality chefs in your local area with the Foode app.

Google Play App Store

Foode is an online marketplace for quality home cooked food. A mobile application that allows independent chefs to sell their own food from home. If you are interested in becoming a Foode chef, go to our website and sign up to our mailing list on our website to be in a chance to try Foode a week early!

www.MyFoode.co.uk

You can download the app for both iPhones and Android now!

foode

Sign up to Foode!
To sign up you have to enter your name and email for your profile, and a you can even add a photo if you'd like too!

Location Set Up!
Simply allow Foode access to your location so we can match you with local chefs and their amazing meals!

Getting Started!
You'll now start seeing local meals pop up before your very eyes! Use the search bar or menu in the top left to find categories to refine your search.

Finally... the Food Bit!
Click on a meal that takes your fancy. There you can check out the ingredients, allergy warnings, then add your meal and how many portions you'd like!

Checkout and Delivery!
Click your basket in the top right to take you to checkout to add your payment details, how you'd like to have your food delivered, and add comments to the chef!

Tuck In!
Enjoy some delicious homemade food from your local chefs, and maybe after you're done munching, leave a review to let others know how good it was!

Fancy a fiesta of flavour?

Homemade straight to your door!
